Three Belles Marina is an authorized mooring service provider for the towns of East Lyme, Waterford and Old Lyme. We provide regular mooring inspections as per town requirements.

Inspection requirements are a minimum requirement and should not be relied upon for your safety or the safety of your vessel. Moorings wear differently depending on location, conditions, materials used, and the weight and type of vessel moored. TBM recommends annual reconditioning service especially in Niantic Bay, Black Point, Giants Neck, and Point O' Woods. Coordinates must be provided by the customer and accurate.

SERVICE RATES: Please be advised below pricing is based on group services. If singular services are requested or required, additional charges will be applicable.

- Inspection, Reconditioning & Winter Storage Service:** *(Recommended year of required inspection). Mooring will be hauled in the fall, stored, cleaned, inspected, repaired and set in the spring. Mooring ball will be repainted and labeled as required. Customers will be called if repairs are in excess of \$300.00.* **\$375.00**
- Fall Service:** *Remove mooring ball, pennant and mast buoy and install winter stick. Mooring ball to be stored at TBM or picked up by customer. Labor included, parts extra.* **\$150.00**
- Spring Service:** *Remove winter stick and install mooring ball, pennant, mast buoy and provided permit sticker. Winter stick stored at TBM or picked up by customer. Labor included, parts extra.* **\$150.00**
- Reset Mooring:** *Haul and reset mooring to new location coordinates.* **\$200.00**
- Pulley Pole Inspection:** *Perform an inspection on pulley pole system and send in to Harbor Master. Please Note: Three Belles Marina does not perform any repairs on pulley pole systems.* **\$235.00**
