

Three Belles Marina

On The Water Services

Mooring Customer Rates 2005-2026

Please review the below group rate customer options we offer for the towns of East Lyme (Niantic) and Waterford. If you are unsure of the service that would best fit your mooring needs, please give us a call at **860.739.6264**.

Full Time: *This Service will continue until cancelled by the customer (in writing to TBM).*

Three Belles Marina will haul your entire mooring assembly each year, perform an inspection (with an estimate if repairs exceed \$400), and recondition as needed. Your mooring will also be stored for the winter. In the spring we will reset your mooring, with a freshly painted ball that displays your last name and weight of mooring. Your inspection report will be sent to appropriate Harbor Master every 2-3 years based on the towns requirements.

Normally \$400, \$25 Discount! \$375

Winter Stick:

Fall removal of mooring ball, pennant, mast buoy, and installation of your labeled winter stick. Your mooring ball will be stored at TBM or picked up by the customer. In the spring we will remove your winter stick, install the mooring ball, pennant, mast buoy and customer provided permit sticker. Winter sticks are stored at TBM or picked up by the customer.

\$325

Inspection Service:

We will haul your entire mooring assembly, perform an inspection for needed repairs (with an estimate if repairs exceed \$400), and recondition. We will reset your mooring with a freshly painted ball that displays your last name and weight of mooring. Your inspection report will be sent to appropriate towns Harbor Master.

\$375

New Mooring Build:

Every mooring build is designed to accommodate your unique vessel characteristics and the environment in which you intend to keep it. Active ocean areas require much more robust setups than those in quiet areas not subject to waves, wind, and strong currents. We work with you, your vessel specifications, and your individual town requirements to build the right mooring setup to serve your specific needs.

Each mooring run is based on location in the towns of East Lyme and Waterford, allowing us to provide group rates and value. It is imperative that customers provide accurate coordinates. If a mooring is not accessible to pull, or the coordinates are inaccurate then additional costs will be incurred by the customer.

Please Select Service Below

_____ ~ Full Time

_____ ~ Pulley Pole

_____ ~ Winter Stick

_____ ~ Inspection

_____ ~ New Build

Please Note:

- 1: Servicing a mooring will not be scheduled without payment of the service in advance.
- 2: The mooring must be free of any vessel or any other attachments at the time of pulling the mooring. Please be advised this should be no later than November 1st.
- 3: We will schedule the service work during the spring and fall. The performance of the work is subject to weather conditions.
- 4: Three Belles Marina is not responsible for the failure of any mooring equipment during the pulling, hauling, or setting of the mooring. It is possible that some or all the mooring (being moved) will be lost as a result of the stresses at work during this activity.

By signing this agreement, the customer is agreeing that Three Belles Marina is not responsible for the loss or damage to any or all mooring property or any resulting damage to any vessel or other property and is authorizing Three Belles Marina to replace necessary mooring parts up to \$400, before notification. The customer will be contacted for approval on any repairs that may exceed this amount.
